

# RONIN®

Datasheet  
Motores Trifásicos y Monofásicos

CORESA®

Modelo

RM-T2-2F-06000-225-36

Trifásico  
Hierro

3000RPM  
2P

HP  
60,00

|              |         |                       |
|--------------|---------|-----------------------|
| Info General | Skü     | RM-T2-2F-06000-225-36 |
|              | EAN13   | 7428325600843         |
|              | Tipo    | Trifásico             |
|              | Carcaza | 225M                  |
|              | Polos   | 2                     |

|                |                                  |           |
|----------------|----------------------------------|-----------|
| Info Eléctrica | RPM                              | 3000      |
|                | Eficiencia (S)                   | 2         |
|                | Tensión (V)                      | 380/660V  |
|                | Hz                               | 50Hz      |
|                | Factor de potencia (cos $\phi$ ) | 0,89      |
|                | Potencia HP                      | 60,00     |
|                | Potencia kW                      | 45,00     |
|                | EFF $\eta$ = (%)                 | 92,9      |
|                | Corriente (A)                    | 82.7/47.6 |
|                | dB(A)                            | 86        |
|                | Capacitor ( $\mu$ F) monofasicos | No Aplica |
|                | Aislamiento ISOL                 | No Aplica |

|             |                  |             |
|-------------|------------------|-------------|
| Info Física | Dimensiones [mm] | 920*550*700 |
|             | Peso [kg]        | -           |
|             | Material         | Hierro      |

|           |                      |             |
|-----------|----------------------|-------------|
| Logística | material of unit box | wooden case |
|           | size of unitbox      | 920*550*700 |
|           | size of wooden case  | 920*550*700 |
